Work Experience:

- 2010 I am currently President and Senior Trainer for Safety Communications Corp. This year, I have presented many programs such as ICS 300 training for Municipal & County Senior Emergency Responders, 40 hr & 8 Industry Emergency Team Training, 8 hr refreshers for Construction crews that do Hazardous Materials clean up. A large project last summer included 4 hrs ethanol-training sessions at 20 different Fire Depts. throughout Maine. I've also conducted one full-scale exercise as well as tabletop exercises including the Homeland Security Exercise Evaluation Program (HSEEP) After Action Reports.
- 2007 I was a contract Safety Officer for Cyr Construction on an Army Corp of Engineers Construction project in Van-Buren, Me. I also continued my training programs for Hazwoper, Hazwaste and Safety.
- 2006 I began instructing OSHA 10 hr Outreach programs as well as hazmat and confined space training programs.
- 2005 I retired from DEP and have since work as a Hazmat/OSHA training specialist. I have been conducting HAZMAT, Confined spaces and DECON training for Industry Teams, Emergency Responders and Hospital HAZMAT teams. I've been working with a couple of fuel transport companies and have been conducting their Fire Extinguisher and DOT related Hazmat Training for their drivers.
- 1989 I started and began working part time as a HAZMAT instructor for Safety Communications
- 1984 I began work as Oil and Hazardous Materials Specialist I (OHMS), with the Maine Department of Environmental Protection (DEP) in Presque Isle. To date, I've investigated over 2100 oil and hazardous material incidents. I am highly trained in Hazardous Material Handling, Confined Space work, Oil spill containment and control.
- The incidents that stand out as the most challenging have been:
The 1985 Nosedock jet fuel pipeline break at Loring AFB where 15,000 gals was recovered from surface waters, an unknown amount was lost.
The 1987 Loring/ Searsport jet fuel pipeline release of 30,000 plus gallons in Fort Fairfield into a commercial Trout Farm pond.
The 1988 L.E. MacNair Pesticide manufacturing site in Houlton.
The 1994 Spring Flood in Fort Fairfield where we recovered about 7,000 gal of heating oil from the streets and basements. The total amount of oil lost was estimated at 17,000 gals.
The 1996 Irving oil Bulk Plant heating oil spill in Houlton.
The 2001 Anthrax incident at the DEFAS facility at the former Loring AFB in Limestone.
- 1980 I began my work for the Dept. of Environmental Protection. My first job was with the Bureau of Water Quality Control as an Environmental Services Specialist II. My work consisted of water quality monitoring at the Bald Mt. copper site, investigation of citizen complaints concerning violations of Maine's water quality, and enforcement of wastewater discharge licenses.
- 1979 After my hitch in the Navy, I worked at Bath Iron Works (BIW) as a Marine Electrician, while I waited for The Longley hiring freeze on state jobs to end.
- 1975 Due to the inability to advance in laboratory field, I pursued a new career in the U.S. Navy as an Anti - Submarine Warfare (ASW) Technician. After extensive training in electronics, I served with Patrol Squadron Twenty-six. My work consisted of repairing electronic equipment on P-3 Orion Aircraft.
- 1974 After receiving my Associates Degree in Marine Science at Southern Maine Vocational Technical Institute, I went to work at Potato Service Inc. in Presque Isle as a lab technician. My responsibilities included laboratory analysis of the wastewater from the sewage control facility and sampling of the Aroostook River.

Awards

- 2001 Maine Department of Environmental Protection, Customer Service Award for 2001
- 2004 Maine Department of Environmental Protection, Commissioner's Award for work in the Lincoln/Brewer Response Team

Education:

As of Feb. 2010, I've received over 1600 hours of training since I left the NAVY in 1980.

Dates of programs, the title, and the sponsor are listed below.

- May 2010
Completed the OSHA 5400 Training Program Authorizing me to conduct Osha Outreach 10 & 30 Programs for the Maritime Industry. A 30 hr Program.
- Feb 2010
Completed the OSHA 500 Training Program Authorizing me to conduct Osha Outreach 10 & 30 Programs for the Construction Industry. A 30 hr Program
- Jan 2010
Completed the OSHA 503 Training Program Reauthorizing me to conduct Osha Outreach 10 & 30 Programs for General Industry. A 24 hr Program
- Feb 2009
Attended OSHA 30 Construction Program sponsored by the Tampa Safety Council. A 30 hr Program
- Sep 2008
Attended the OIL & ICE Response in Cold Weather Conference sponsored by Maine DEP. A 16 hr program
- May 2008
Attended and gave a presentation at the Underground tank Installers Annual Conference. An 8 hr program.
- Jun 2008
Attended and gave a presentation at 19th Annual Hazardous Materials Conference sponsored by Maine State Emergency Response Commission, a 16 hr program
- Apr 2007
Attended Underground Storage Tank Installer & Inspector Training provided by Maine DEP, an 8 hr program.
- Jan 2007
Completed Abbottville NIMS/ICS-based Tabletop and training Program offered by Command School TTX, an 8 hr program.
- Oct 2006
Completed the Incident Command System: Intermediate (E-195) Train the Trainer offered by Dept of Homeland Security, a 24 hr program.

Aug 2006
Completed HSEEP Exercise Workshop offered by Dept of Homeland Security an 8 hr program

Apr 2006
Completed 501 Trainer Course in Occupational Safety and Health Standards for General Industry offered by U.S. Dept of Labor, OSHA, and Keene State College, a 40 hr Program.

Jun 2005
Completed IS-00700 National Incident Management System (NIMS) offered as an Independent study course by FEMA

May 2005
Completed Hazardous Materials Supplemental Course – Chemical Behavior / Air Monitoring. Presented by Training Technologies International, an 8 hour Program

Apr 2005
Completed Modular Emergency Radiological Response Transportation (MERRT) Course, provided by Department of Homeland Security, 4 hours of training.

Mar 2005
Completed First Responder Awareness Level Course Train the Trainer, sponsored by the State Emergency Response Commission, a 4 hour program

May 2004
Completed DEP Response Service Spring Refresher Training, offered by Maine DEP, a 40 training Program

Jun 2004
Completed Emergency Preparedness and Cold Water Survival Training provided by McMillan Offshore Survival Training, a 16 hour program

Jan 2004
Completed Underground Tank Installer and Inspector Training, approved by the Maine Board of Underground Storage Tank Installers, a 4 hour Training Program

Apr 2003
Completed DEP Response Service Spring Refresher Training, offered by Maine DEP, a 40 training Program

Dec 2002
Completed COBRA WMD Hazardous Material Technician Training Course, offered by the Dept of Justice, Office for Domestic Preparedness, a 24 hour training program in Anniston , Alabama

Oct 2002
Completed MWD Instrument Train the trainer offered by MEMA, a 12 hour training program

May 2002
Completed 40 hours of Hazardous Materials and Marine Oil Spill Training provided By Maine DEP Response Services and The Pratus Group

Nov 2001
Completed WMD/Awareness/Operations Level First Responder Course offered by MEMA, a 12 hour program.

Mar 2001
Completed 32 hours of 29CFR 1910.120 (q) Emergency Response Refresher Training presented by Petroclean, Inc.

Jan 2001
Completed Maine Driving Dynamics Course offered by Maine DEP, a 4 hour program

Nov 2000
Attended Explosive Search and Identification offered by New England Chemical and Explosive Disposal Co. Inc, a 2 hour program.

Apr 2000
Completed 8-hour Highway Transportation – Emergency Response Training, presented by Petroclean Inc.

Mar 2000
Completed 40 hours of Hazardous Materials Refresher training offered by Maine DEP Response Services.

Mar 2000
Completed the MEMA (Maine Emergency Management Agency) Train-the-trainer Program for Operations Level Instructors. An 8 hour program.

Feb 2000
Completed Lift truck operator course offered by Maine DEP, a 4 hour program.

May 1999
Completed “Basic Incident Command System” correspondence course offered by FEMA (Federal Emergency Management Agency)

May 1999
Successfully completed First Responder, DOT/OSHA/EPA/NFPA, BULK VESSELS, Rail Car and Cargo tank, training program provided by Rohm and Haas Corp at the International Paper Mill in Jay

Jul 1998
Completed “Air Monitoring for Hazardous Materials (165.4) provided by EPA at Concord, NH Fire Training School, a 40 hr program.

Oct 1997
Completed “Facility Response Team Training” at Portsmouth Naval Shipyard. A 24 hr program.

Dec 1995
Completed “An Orientation to Community Disaster exercises” correspondence course offered by FEMA (Federal Emergency Management Agency)

Jul 1995
Successfully completed “Computer Aided Management For Emergency Operations”, an 8 hr program.

Jun 1993
Completed "Train the Trainer" by the Northeast Environmental Enforcement Project. A 20 hour training program.

Oct 1991
Completed "Hazardous Materials Technician Course" by the Association of American Railroads. An 80 hour training program.

Aug 1991
Completed "How to Develop & Implement an Effective Safety Audit" by the Maine Safety Council. 8 hour training course.

Oct 1990
Completed "Hazardous Materials: A Citizens Orientation" By the National Emergency Training Center. A correspondence course.

May 1990
Completed "OSHA's Guide to Voluntary Compliance 30 Hour Occupational Health & Safety Course" by Maine Dept. of Labor. A 30 hour training program

Sep 1989
Completed "Petroleum Tanker Safety Course" conducted by the College of Maritime Studies, Southampton, England. This class was held at Maine Maritime Academy Castine, Maine. 40 hour training course.

Jun 1989
Completed "Confined Space Entry" by the Maine Safety Council. 8 hour training course.

Mar 1989
Completed "Industrial First Aid" conducted by the Joint Environmental Training Coordinating Committee. 8 hour training course.

Feb 1989
Completed " Response Safety Decision Making" (EPA 165.8) conducted by the U.S. EPA Office of Emergency and Remedial Response in Boston, Mass. 24 hour training course.

Dec 1988
Completed "Tank Car Safety Course" conducted by the Association of American Railroads in Pueblo, Colorado. 40 hour training course.

Sep 1988
Completed "Incident Analysis of Hazardous Materials Emergencies" Conducted By the Federal Emergency Management Agency in Presque Isle, Maine. 16 hour training course.

Dec 1987
Completed "Introduction to Ground Water Investigations" conducted by the U.S. EPA, Office of Emergency and Remedial Response at Sudbury Mass. 32 hour training course.

Apr 1987
Completed "Advanced Hazardous Waste Investigation Training Course" conducted by the Northeast Hazardous Waste Project in Heightstown, New Jersey. 32 hour training course.

Jan 1986
Completed the "Radiological Emergency Response Training" at the Nevada Test Site in Las Vegas, Nevada. The class was conducted by the U.S. Dept. Energy. 80 hour training course.

May 1985
Completed "Radiological Accident Monitor" course conducted in Augusta, Maine by the Bureau of Emergency Management. 8 hour training course.

Feb 1985
Completed "Tank truck Rollover Training Course" at Texas A&M University in College Station, Texas. 24 hour training course.

Jun 1984
Completed "Petro-tite" Tank testing school at Heath Consultants in Stoughton, Mass. 24 hour training course.

Aug 1984
Completed "A Hazardous Materials Incident Response Seminar and Simulation". This seminar was presented by the Environmental Hazards Management Institute in South Portland, Maine. 20 hour training course.

Nov 1984
Completed "Hazardous Materials Incident Response Operations Course", conducted by the EPA, office of Emergency Response at Edison, New Jersey. 40 hour training course.

Oct 1983
Completed "Inland Oil Spill School" at Texas A&M University in College Station, Texas. 40 hour training course.

Feb 1976
Graduated Anti-submarine Warfare Technician School. Memphis Tenn.

Sep 1975
Graduated U.S. Navy Electronics "A" school. Memphis Tenn.

May 1974
Graduated from Southern Maine Vocational Technical Institute with an Associates Degree in Marine Science.

Jun 1972
Graduated from Presque Isle High School
